Greenmeadows
Napier 4112

Letter of Recommendation

To Whom it May Concern,

DWB Electrical has been involved in the cyclone recovery project at Pan Pac Forest Products over the past twelve months.

Throughout the project Don has been great to work with, providing clear and regular communication to ensure all parties were clear on work scope and outcomes. The service and attention to detail provided by Don has been excellent. DWB has taken pride in the work completed and ensures that the delivered product is to a high quality and left in a state that is clean and simple for future workers to follow. The work completed here on site has become the benchmark for many of our site electricians to measure themselves against.

It is a pleasure to have DWB Electrical on site and I look forward to working with the team in the future.

Kind Regards

Josh Garrett
